

## Conquering Disease With Living Foods

Can raw, living foods really save your life? Are they a viable alternative to conventional methods when it comes to preventing and treating cancer and other life-threatening illnesses?

Get the answers to these questions and more when one of the world's leaders in progressive health care therapies comes to Troy for one enlightening evening. On Tuesday, Aug. 27, Brian Clement, PhD, LN, co-director of the world-renowned Hippocrates Health Institute, presents "All About Cancer: Conquering Disease with Living Foods" at the Troy Community Center, 3179 Livernois in Troy. Dr. Clement will speak from 6 until 9 p.m., followed by a one-hour Q&A session.

Dr. Clement will address disease prevention and how to use raw foods to take responsibility for our own health and heal from diseases such as breast cancer, prostate cancer and lung cancer.

As co-director of Hippocrates Health Institute (HHI) in West Palm Beach, Fla. and author of more than 29 books exploring various aspects of health, spirituality and natural healing, Dr. Clement brings more than 40 years'

experience to his lectures and educational programs.

Attendees will also learn how a local family learned to embrace a healthy lifestyle and is now working to help transform the lives of others, after Anca Iordachianu attended a three-week life-changing program at Hippocrates Health Institute and healed herself of breast cancer. Her husband Gabriel then adopted the program and reversed his diabetes. Inspired to share the "miracle foods" of wheatgrass and sprouts and to make a positive difference in the world by educating others, the two founded Wheatgrass and Sprouts in Troy and are hosting Dr. Clement's visit.

Tickets are \$25. Seating is limited and advance registration is encouraged. Register at [wheatgrassandsprouts.com](http://wheatgrassandsprouts.com), in person at 1925 W. Maple Rd. in Troy, or contact [info@wheatgrassandsprouts.com](mailto:info@wheatgrassandsprouts.com) or 248-822-9999.
